

COMMONS TAKES UP HINDU HUNGER STRIKE

Hon. Frank Oliver Asks Questions and Dr. Roche Answers Them.

Breach in Vancouver Between Newcomers and Shore Party Widens.

Committee Ashore Does Not Agree With Gurdit Singh.

Mr. C. Gardner Johnson Discusses the Question of Starvation.

Ottawa, June 6.—The hunger strike of the Hindus on board the steamer Komagata Maru was the subject of a debate in the House of Commons this morning. In reply to a question from Hon. Frank Oliver, the minister of the interior, Hon. Dr. Roche, made a statement. He said that instructions had been sent to the authorities at Vancouver to see that the passengers on board the steamer had plenty of provisions. This morning he received word that they had offered the Hindus two tons of flour, a couple of hundred pounds of rice, bread and all the fruit necessary. That the Hindus had refused, unless they got in addition ginger, milk, fifty live sheep and goats, one hundred head of live poultry and two hundred boxes of cigarets. The hunger strike was said to be more apparent than real, as the ship officers stated, the Hindus were secretly eating at night and were not suffering.

Enforcing Order-in-Council.
Mr. Oliver said he was not interested in whether the Hindus ate flour or rice or ginger or smoked cigarets. What he wanted to know was if the order-in-council was being enforced, which forbade the entrance of all artisans and laborers into Canada. He thought there had been unnecessary delay. Dr. Roche assured Mr. Oliver that the order was being enforced. A board of inquiry was holding sittings and this took time, particularly as the Hindus did not understand English and each individual case had to be passed on. Mr. Oliver said he had noticed in the press that a shipload of Chinese had been admitted. He wanted to know if the order was being enforced against these aliens. Dr. Roche assured him it was.

Hindus Must Pay.
Messrs. C. Gardner Johnson & Co., agents here for the Japanese steamer Komagata Maru, received a cable from the owners this morning which will precipitate the whole question of the 378 Hindus aboard the vessel anchored in the harbor. The agents were instructed today to collect the price of the coal immediately and that the balance of the charter money and all other expenses must be paid by June 11.

The steamer has 1500 tons of coal on board, purchased at Mobji by the Hindus, collectively, with the idea of selling it here at a profit and thus realizing a substantial sum whereby litigation might be carried on. The Japanese owners of the Komagata Maru went guarantors to the coal vendors for the amount of, in other words, backed the note of Gurdit Singh and his fellow voyagers for the coal, on the understanding that it would be sold here and the money repaid.

May Lose Profit.
As such a deal has not come off and as Gurdit Singh has refused to
