# GET CONNECTED & LEARN OUTSIDE THE CLASSROOM

The **Co-Curricular Record (CCR)** is a university transcript, in addition to your academic record, that provides official recognition for your out-of-classroom primarily on-campus contributions and learning.

It documents and highlights your participation in almost 600 unique, exciting and outcomes-based learning opportunities including:

- essential skill development training and workshops
- volunteer opportunities
- leadership positions
- governance roles
- work-study positions
- research assistant roles
- and much more!

If there aren't enough opportunities on campus for you, our CCR also extends to specific partner groups and organizations outside of UFV that offer opportunities recognized on the CCR.

The UFV CCR is unique because it links directly to the University learning outcomes. Just like your program or classes have stated outcomes for your learning, so do the opportunities recognized by the CCR.

The CCR will enhance your resume, scholarship applications, and academic and career portfolios. It will help you market your experiences and skills to employers or graduate and/or professional programs—as well as apply for scholarships, grants, or bursaries. Most employers are looking for applicants with experience; students with a CCR can show university-recognized and validated experience that will set them apart from the competition.

Over 9000 students are already engaged in co-curricular learning at UFV. Come join them!

Want to hear what UFV students have to say about Co-Curricular Record? Check out this video: [ufv.ca/CCRvideo](https://ufv.ca/CCRvideo)

## STUDENT UNION SOCIETY

*"The CCR is a testament to the fact that UFV recognizes all the hard work, dedication, and countless hours students put into making the UFV community a better place for everyone each semester. I can honestly say that all my out-of-classroom work at UFV has easily taught me just as much as all my academic work. Now, when I graduate, I'll have a second official transcript to validate all those achievements."*

Get a head start on your university program

Some students who do not meet the high school requirements to get into a university program can still take courses as **Qualifying Studies** students. This means that while they are upgrading their high school, they can also take university courses to be credited toward a future degree.

Qualifying Studies is also a great way for students who wish to explore their options before applying to a program to take university courses.

Learn more at [ufv.ca/QS](http://ufv.ca/QS).

# WHAT DO I NEED TO GET IN?

Depending on the program, qualified applicants are admitted in two ways:

- 1. A first-qualified, first-admitted basis, depending on how early you applied.
- 2. A competitive basis, according to criteria the program has established for admitting the best-prepared students. Students still need to apply by the deadline. Early application is recommended.

## BASIC REQUIREMENTS

Post-secondary programs at UFV usually require BC high school graduation or equivalent.

In some circumstances, certain programs may accept mature students (age 19 or older on the first day of classes) without high school graduation.

## PROGRAM-SPECIFIC REQUIREMENTS

Many programs have additional entrance requirements. These are all listed on pages 29 – 33, or in the academic calendar online at [ufv.ca/calendar](#).

## STUDENTS FROM OTHER PROVINCES

You are considered to have the equivalent of a BC high school diploma if you graduated from high school in:

- Yukon, Northwest Territories, Nunavut, Alberta, Saskatchewan, Manitoba, New Brunswick, Nova Scotia, Prince Edward Island, or Newfoundland
- Quebec, and have completed one full academic year at CEGEP
- Ontario (after 2003)

Ontario students who graduated in 2003 or before are required to have six OAC courses or Grade 13.

## HIGH SCHOOL EQUIVALENTS

You may be considered to have the equivalent of a BC high school diploma for admissions purposes if you have completed:

- the International Baccalaureate diploma program
- the ABE Provincial diploma
- the BC Adult Graduation diploma

- Adult Basic Education
- the General Education Diploma (GED)

## ENGLISH LANGUAGE REQUIREMENTS

English is the language of instruction at UFV. Applicants are expected to be able to demonstrate language proficiency. UFV will verify that applicants meet language proficiency requirements prior to admission.

If you don’t meet entrance proficiency levels, there are programs at UFV to help you upgrade your language skills:

- Upgrading & University Preparation
- English as a Second Language
- University Foundation Certificate

## CONCURRENT STUDIES

Secondary school students may take a course at UFV while still working toward secondary school graduation. Ask about programming for trades students. Check out the details at [ufv.ca/calendar](#).

## IF YOU DON'T MEET PROGRAM REQUIREMENTS

UFV can help you get the requirements you need. One of our academic advisors would be happy to meet with you. Learn more at [ufv.ca/advising](#).

Some students who do not meet the entrance requirements for their program of choice may be admitted as Qualifying Studies students. These students can take up to 30 credits while they work on getting the requirements needed to enter a program.

Students who don’t meet all the requirements may also request special consideration. Special admission request forms are available at [ufv.ca/admissions](#) or at the Office of the Registrar on campus.

If you don’t meet the entrance requirements for your program, you may want to explore UFV’s Continuing Education options. Learn more at [ufv.ca/ce](#).

# PAYING FOR YOUR EDUCATION

Your education is probably the best financial investment you will ever make. In Canada, the average university graduate earns significantly more over the course of their career than the average high school graduate.

### TUITION AND FEES

The estimated costs (next page, bottom right) are based on a typical first-year Arts or Science student who is taking a full course load (5 courses/semester). Fees may vary depending on your program. You can find detailed information on tuition and fees at [ufv.ca/admissions](https://ufv.ca/admissions).

### FUNDING YOUR EDUCATION

There are lots of ways you can get help paying for your education:

#### CANADA STUDENT LOANS

A Canada Student Loan is payment-free until six months after you graduate or leave school. You can learn more about student loans, as well as other government programs designed to help students, at: [studentaidbc.ca](https://studentaidbc.ca)

#### CANADA STUDENT GRANTS

### DID YOU KNOW?

Your tuition payments fund just one-third of the actual cost of your education. Thanks to government funding and generous donors, two-thirds of the actual cost of your education is provided for you.

“

*I was at a larger university in Montreal for two years. I chose it for its reputation, but I struggled. My lectures could have up to 1200 students. My grades fell, and I no longer enjoyed attending classes. I seriously questioned whether I belonged in university. When I came to UFV, I planned to stay only long enough to complete a certificate. But I realized that I actually like learning. Everything is more personal at UFV, like how the professors know my name after the first week, and getting involved is simple. So I’ve transferred into the degree program.*
